Instructions for using WebEx Meeting software:

Our April training meeting will be held Saturday, April 18, on a VIRTUAL platform called WebEx. No in-person meetings for awhile. The instructions below will guide you through installing the application on your computer, and then logging in. You may also use a telephone to call in if you wish, although you will not get the benefit of screen sharing. This will be our second time holding a meeting this way, so we hope you will join us. Future meetings will be held this way too.
